

My paper

First Author, Second Author

June 08, 2025

Abstract

My abstract.

1. My Section

An equation with label

$$(1) \qquad y = mx + b,$$

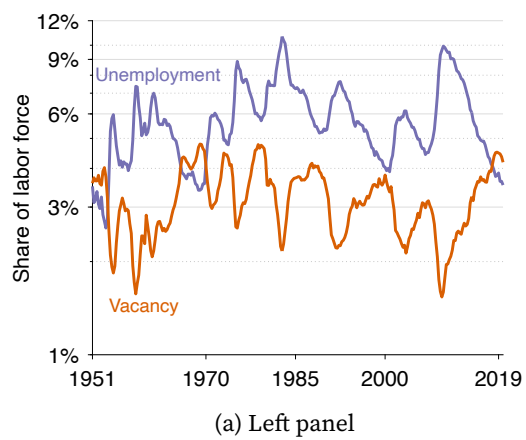

which we cross-reference in the document ‘appendix.lyx.’

We make sure that citations work like so Michailat and Saez (2015) and one more: Michailat (2014). The bibliography style is ‘chicago’ so that the document compiles under ‘pdflatex.’ If one wishes to use the original ‘bibliography.bst,’ plain LaTeX compilation should be used.

A. First appendix section

This is an in-document appendix. Some journals offer authors to upload a separate appendix which is only published online. For a document that produces a separate appendix, please see ‘appendix.lyx.’
